Featured Speaker:

Cheryl Scott, PhD, RN, IBCLC, RLC

Program Description:

Low milk supply continues to be the number one reason for early cessation of breastfeeding. Join this 60-minute webinar to identify the causes for low milk supply and learn how to develop and implement specific breastfeeding care plans to improve maternal milk supply. Dr. Scott will explore the specific challenges and causes of low milk supply that many breastfeeding mothers experience and teach you easy solutions for low milk supply. Enjoy learning a balanced approach that incorporates the philosophies of both western medicine and complementary medicine. Discover tried and true methods that really work to boost low milk supply. Learn how to turn a frustrating experience for breastfeeding mothers into a fulfilling experience.

Program Objectives:

At the completion of this program, you will be able to:

- ☐ Identify 5 major causes of low milk supply.
- ☐ Explain effective solutions for the most common causes of low milk supply.
- ☐ Recognize the impact of hormonal disruption on milk supply.
